WEB DEVELOPMENT EXPERIENCE

General Assembly

Web Development Immersive Student

Washington DC

May – August 2016

- Full-stack web development program focused on common best practices in OOP, MVC frameworks, data modeling, and test-driven development. Developed a portfolio of individual and collaborative projects, including:
 - B3 Memory: a concentration game built using jQuery: <http://jschultz21.github.io/B3Memory>.
 - DC Brew Circuit: a Ruby on Rails Web Application built one week after learning Rails for the first time: <https://dcbrewcircuit.herokuapp.com>.
 - GigMappr: built using AngularJS for the front-end and Rails for the back-end <http://gig-mappr.bitballoon.com/>.
 - Hello World: an application to keep job seekers productive and organized, built using React.js and Ruby on Rails: <https://hello-world-wdi.herokuapp.com>.

PROFESSIONAL EXPERIENCE

Making Cents International

Associate, Projects and New Business (promoted from Conference Intern)

Washington DC

July 2013 – May 2016

- Project manager responsible for tracking project budgets between \$50,000-\$2,500,000, assembling curriculum packages, executing research, and managing 8-12 consultants for various International Development projects.
- Conducted research and prepared 10-15 case studies that informed a publication prepared for Microsoft on technology skills training for youth, working closely with Making Cents' CEO.

GlobalGiving

Project Team Intern

Washington DC

June 2012 – May 2013

- Resolved technical issues and provided support for the website's ~2000 international and domestic project leaders.
- Conducted due diligence using Salesforce on 250-350 organizations that were seeking to join the site.
- Managed web content, planned and prepared newsletters for strategic partnership development.
